Sh. M. B. Agrawal
General Secretary, AIKVTA

Dated: 26.05.2020

Sub: Request for Consideration for Evacuation to India on Emergence Medical Ground- Reg.

Respected Sir,

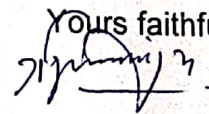

With reference to the above subject may I put forward a few points for your kind consideration -

1. I am R. K. G. Pandey, (Male, Aged 55 Years), presently posted at Kendriya Vidyalaya Embassy of India Kathmandu, Nepal.
2. I have been suffering from severe Urinary Tract Infection (UTI) and other related complications along with acute lower abdomen pain for the past 2-3 months for which I had been under medical treatment in Kathmandu. I had to be hospitalised twice during the last week (once on 18.05.2020 & then again on 23.05.2020) and was treated for low Sodium level and infections in my kidney and prostate.
3. Since I stay alone in Kathmandu, I am afraid and stressed about my medical health condition. My family/wife cannot even come to Kathmandu to stay with me during these difficult times due to the situation arising out of COVID-19 and restrictions imposed by Nepal Govt. Moreover, the situation has become tensed because of bilateral tensions between India and Nepal at present.
4. Under the above serious medical issues, it has now become necessary for me to go back to my home in Bhopal, Madhya Pradesh, India and seek expert medical intervention.
5. My health and mental condition has now become a cause of concern and extreme stress for me and my family in Bhopal, India.
6. I have intimated my condition to the DCM, Indian Embassy, Kathmandu & Chairman, VMC through the Principal, KV EOI, Kathmandu. His verbal response regarding sending me back to my hometown Bhopal has not been very positive and encouraging.

Kindly take up this issue with the competent authority and do the needful so as to enable me go back to my hometown Bhopal, India to seek immediate medical intervention and also to relieve me and my family from extreme mental stress and tension.

Thank You

Yours faithfully

R. K. G. PANDEY
